

HSP

Non-combustible shock pad

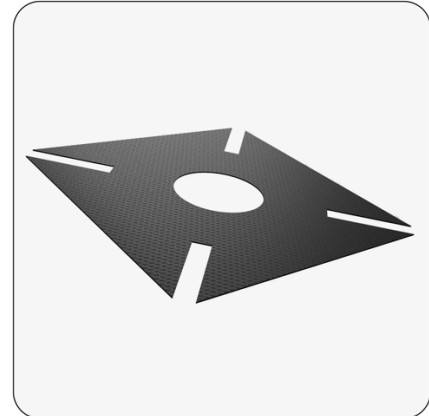

Overview

The HSP is a non-combustible shock pad manufactured from silicon-coated glass cloth. This pad provides a discreet cushion between the paved surface and support, reducing grating sounds caused by trapped dust and debris; whilst guaranteeing maximum resistance to external factors.

Key features:

- Non-combustible - A1 rated
- Suitable for all IGNO pedestals

Performance

Product material	Silicone coated glass cloth
Reaction to fire	A1
Dimensions	90x90mm
Chemical/environmental	Resistant to water, weathering, ozone, acid, alkali and alcohol
Warranty	30 years
Design life	60 years
End of life disposal	Product should be disposed of in accordance with local and national waste disposal regulations
