

RDC

Fixed Height Joist Cradles

Overview

The RDC fixed-height cradle range is designed to support all conventional decking and flooring systems, both external and internal.

- Uses shims for incremental height adjustment
- Supports the joist at four contact points

Performance

Material	Rubber crumb (92% recycled tyre tread)
Bonding agent	Flexible polyurethane
Biological/chemical	Resistant to moulds, algae, alkali, bitumen
Compression	800kg
Base size	100 x 100mm
Bearer capacity	30 - 48mm

Sizes

Code	Height
RDC10 - Cradle	10mm
RDC20 - Cradle	20mm
RDC2 - Shim	2mm
RDC5 - Shim	5mm

Compatible Systems

TerraSmart®

Composite Decking System

Wood-plastic composite decking system for outdoor spaces
